I-240-001 | My neighbors and I haven't heard a word about the transmission lines project until these last four days before the comment deadline. It makes us feel like those behind the project might not be aware of, or just simply might not be bothered by the idea of destroying, the many homes that lie in the proposed path of the power lines.

I-240-002 | Please be aware that there are many of us that have housing, either for vacation or permanent residence, in the La Veta Pass area. My family has traveled to our house every summer for longer than I've been around, and each of us share special memories of our times spent on our property. Some of us took our first steps on that land. We want the landscape to stay the same as when we found it. Many square miles of the surrounding wildlife would be wiped out in the wake of your bulldozers, and it's disheartening to think that all the commercialization and noise from society that we try to escape by going to southern Colorado may be coming right for us.
